Cloud/DevOps Engineer with 4+ years automating Kubernetes (AKS) infrastructure and CI/CD pipelines, with hands-on Python/Shell scripting experience. Proven track record resolving production incidents across containerized environments, with growing exposure to cloud-native deployment patterns relevant to backend and AI-serving workloads.

WORK EXPERIENCE

Tech Architecture Associate - Cloud Accenture

04/2025 - Present

Jaipur, India

Job responsibilities

- Maintained 99.9% uptime across AKS production clusters by resolving CrashLoopBackOff, ImagePullBackOff, and probe failures, and remediating Ingress/DNS/networking faults for 200+ microservices
- Eliminated certificate-related outages by automating TLS/SSL renewal and lifecycle tracking across Kubernetes components, reducing manual cert operations by 40%
- Integrating GenAI/LLM inferencing into backend services and APIs to automate the workflow of manual log extraction from pods, reducing the time consumed by 70%
- Recovered 200GB+ of cluster storage capacity by auditing filesystem/disk utilization and executing PV/PVC expansion and node storage extension using Linux CLI tooling
- Streamlined Harbor and on-prem registry operations by managing image upgrades for PTS, IRM, and CMT applications, and executing PostgreSQL version upgrades across 30+ on-prem environments with zero data loss
- Reduced incident resolution time by [X]% by extracting and analyzing container logs for root-cause analysis and supporting application teams through critical CI/CD deployment incidents

Cloud Engineer HCLTech

04/2022 - 04/2025

Lucknow, India

Job responsibilities

- Provisioned and maintained AWS infrastructure (EC2, VPC, Load Balancers, S3) supporting production workloads with 98% SLA adherence across on-call rotations
- Managing the Terraform state files to configure the infrastructure with required resources.
- Cut incident response time by 80% by performing root-cause analysis and standardizing documentation workflows in ServiceNow and Jira

EDUCATION

Bachelors of Technology - 7 CGPA Noida Institute of Engg. and Technology

2015 - 2019

Greater Noida

Intermediate - 7.5 CGPA Gaurav Memorial International School

04/2013 - 08/2014

Central board of secondary education, Delhi

Highschool - 8.4/10 Gaurav Memorial International School

04/2011 - 08/2012

Central board of secondary education, Delhi

SKILLS

Languages: Python

Container Orchestration: Kubernetes, AKS, Helm, Rancher

CI/CD: Jenkins, GitHub Actions

Terraform

Cloud: AWS (EC2, S3, VPC), AWS Certified Cloud Practitioner

Registry/Storage: Harbor, On-prem registries

OS/VCS: Linux, Git

IDE: Cursor

CERTIFICATES

AWS certified cloud practitioner (Amazon)

VALIDATION NUMBER: 7C7S86X2S2B11C37 //VALIDATE AT:
